

# Hospice

## DEFINITION

Hospice is designed to provide comfort and support to patients and their families when a life-limiting illness no longer responds to cure-oriented treatments. Hospice care neither prolongs life nor hastens death. Hospice staff and volunteers offer a specialized knowledge of medical care, including pain management.

## SERVICES

Hospice covers all services, medications and equipment related to the illness.

These include:

- Physician services
- Nursing services
- Home health aides
- Medical appliances and supplies
- Therapies including pet therapy, music therapy, art therapy and more....
- Spiritual, dietary, and other counseling
- Continuous care during crisis periods
- Trained volunteers
- Bereavement services

Information found using the Hospice Foundation of America  
<http://www.hospicefoundation.org>
