

Interior Design & Decorating

DEFINITION

Interior design professionals provide services that include designs of choice décor and furnishings. There are some Interior Designers that specialize in the needs of an elderly and / or disabled individual. They help with the interior design of the new space that an elderly and / or disabled individual is moving to...whether that is moving from a large house and downsizing into a smaller house or moving into a senior living facility. Emphasis is given to doing necessary modifications to accommodate special needs and safety for them.
