

Nursing Facilities – Skilled (Greater Metro)

DEFINITION

A skilled nursing facility, (i.e. nursing home) is a residence that provides a variety of services such as a room, meals, recreational activities, assistance with activities of daily living and protection / supervision to residents.

Skilled nursing facilities are licensed by each state and are required to follow both state and federal regulations.

SERVICES

- Three meals a day served in a common dining area
- Assistance with eating, bathing, dressing, toileting and walking
- Access to health and medical services
- 24-hour security and staff availability
- Medication management
- Social and recreational activities
