

Adult Day Services

Adult Day Services are available at adult day centers based in communities statewide. Structured, comprehensive programs provide health, social, and related support services on a daily basis but do not provide 24-hour care as in a residential facility.

What do they do?

Adult Day Services include a large range of activities and services:

- Skilled nursing
- Health monitoring
- Rehabilitation
- Coordination of care
- Assistance with medications
- Personal care
- Care planning
- Outings, crafts and exercise groups
- Nutritious meals and snacks
- Overnight respite care
- Music
- Discussion groups

What are the benefits?

Adult day centers give adults the opportunity to continue to live in their own homes. Day centers can successfully separate housing from services and avoid the necessity of moving out of one's home and neighborhood. Adult Day Services improve or maintain health, independence, and, ultimately, quality of life.

How do caregivers benefit?

Caregivers who are employed can go to work knowing their loved one is safe and well cared for in an adult day center. Day services also provide "time off" or respite for a caregiver. Many programs specialize in care for those with Alzheimer's disease, Parkinson's disease, and other medical conditions.

What about the costs?

Adult Day Services are available at a reasonable cost. Most services have contracts with county social service programs that may cover the costs for those unable to pay. In addition, some long-term care insurance policies also authorize payment. Families may need guidance in determining which Adult Day Services program will fit their needs. Here are some helpful steps to use as a guide:

What does the family want or need for their loved one?

- A safe, secure environment
- Assistance with eating, walking, toileting, and medicines
- Social activities
- Therapies: Physical, Speech, and Occupational
- Nutritious meals and snacks
- Personal care: bathing, shampoo, and shaving
- Exercise
- Nursing, health monitoring: blood pressure, intake, weight, and medication administration
- Mental stimulation

What does the family need?

- Respite
- Coverage while caregivers are at work
- Support
- Transportation
- Overnight respite care
- Assistance in planning for care

Finding adult day centers

Refer to the Adult Day Services grid in this section of the *SeniorCare GuideBook* to find services close to the family's home. Also find Adult Day Services at www.leadingagemn.org

Encourage, Encourage, Encourage

Family members often need support to follow-up with calls to centers. Encourage them to schedule an appointment to visit the center(s) that can accommodate the needs of the caregiver and their loved one. Once in a center, it may take several visits for them to feel comfortable in the new setting and with a new routine. Families need reassurance from professionals they know and trust that this is a normal adjustment period.

Special thanks to LeadingAge Minnesota for their expertise on Adult Day Services.
